

SHOBHAN SAHA

ASPIRING DATA SCIENTIST

-  www.linkedin.com/in/shobhan-saha
-  shobhansaha06@gmail.com
-  +8801744-304396

RELEVANT SKILLS

- Data Analysis (Excel, Google Sheets)
- Visualization (Power BI)
- Programming (Python)
- Database (SQL, MySQL)
- Statistics (Descriptive, Inferential)
- Data Cleaning (Wrangling)
- Machine Learning Basics

PROJECTS

Personal Budget Planner

- This Excel project aims to create a comprehensive Personal Budget template, covering zero-based multi-period Budget Planning, intuitive Budget Tracking, and proactive financial planning with minimal effort.

Sales Analysis

- Using Python Pandas and Matplotlib, we analyze a year of electronics store sales data, examining monthly trends, product types, costs, and purchase locations to derive valuable insights for informed business decisions.

Financial Report Analysis

- Created a user-friendly Financial Dashboard in Power BI, showcasing key data like unit sale per population, total profits by country, and monthly profit trends.

Music Store Data Analysis using SQL

- Analyzed a Music Store dataset using SQL to discover insights like the best-selling genres, top-spending customers by country, and optimal cities for promotional events based on invoice data.

Building an Ice Cream Database with SQL

- Used database queries to track ice cream sales, manage inventory, and analyze customer loyalty for an Ice Cream Parlour. Also, evaluated employee performance and made data-driven decisions for promotional events and overall business strategies.

EDUCATION

Data Science Certificate Program

- Platform: Ostad
- Expected Completion Date: February 2024

Bachelor of Science in Computer Science & Engineering

Institution: American International University -AIUB
Year of Graduation: 2023

- CGPA 3.46 out of 4.00

WORK EXPERIENCE

IT Intern

Investment Corporation of Bangladesh (ICB)
Jan 2023 - Apr 2023

- I had the chance to learn about database organization, custom programming, and personal network server setups.
